

Evaluation Services: We Deliver the Facts for Your Smart IT Decisions.

Are you facing an important application decision? Are you looking at ERP, CRM, BI or DMS? Are you confused by the vendors' advertising promises? Get a better picture with the help of our experienced colleagues. Our focused business perspective will guide you through the decision-making process. So that you make the right decisions in the long term.

UMB Evaluation Service: So that you take the right path.

We will support you in defining your business requirements, find suitable solutions in the market and organize product presentations with suitable partners. Subsequently, we will jointly conduct the evaluation and develop a structured recommendation for action on the best solution. We do not simply go through an evaluation, but will find the best solution - along your value chain. Our experts have the experience and the overview, are innovators and are able to create a solid basis for future decisions.

Making the right decisions for your long-term business success

Applications can influence your development in the long term. We can provide you with application know-how, experience, and pragmatic methods for the development of your decision-making bases. This allows us to make a significant contribution to your long-term business success.

An upcoming system decision as an opportunity for change

We establish solid foundations for your system decision. In doing so, we take a pragmatic approach, identify the important requirements of your stakeholders with the necessary finesse, and inform you transparently about the results and progress.

We will give you time and space for your daily business and provide you with an adequate basis for decision-making

to increase your efficiency and thus support your company's development. Our experts will also act as coaches to provide your employees and managers with an outside perspective and know-how.

Put us to the test now. We have the expertise from many projects and mandates, can find our way around in any environment and can initialize changes.
