

Basis Manager SAP Private Cloud: Deep Relaxation in the SAP Cloud With UMB.

Reliable and secure basic administration is essential in the SAP Private Cloud (RISE). Do you have the experience and resources for this? The UMB SAP Wizards take care of all the basic tasks to ensure that your SAP S/4 HANA in the cloud runs smoothly, securely and economically - from A for audit log to C for certificate maintenance to S for security. Our experts will create time for you to concentrate on the further development of your SAP and your core business with complete peace of mind.

With the migration to the SAP Private Cloud (RISE), the first hurdle has been overcome. However, the challenges continue with regard to basic activities in the SAP Private Cloud environment. They lie, for example, in the precise planning and coordination of updates and upgrades within complex system landscapes. These tasks require a

great deal of know-how and years of experience, particularly in the administration of OS, DB and application upgrades as well as in the management of roles and authorizations. It is also a huge advantage to be able to fall back on experts who have outstanding direct access to SAP should any problems arise.

500 years of experience guarantee a smooth cloud operation of SAP S/4 HANA.

„Basis Manager SAP Private Cloud“ is the solution with which all challenges in the SAP Private cloud can be mastered with complete peace of mind. Our SAP wizards have over 500 years of combined experience. As tried-and-tested SAP Basis experts - we operate our own UMB SAP Cloud - we also take care of all basic activities in the SAP Private Cloud. We act both as planners and as an important link between you and SAP. Our comprehensive expertise enables us to effectively manage the precise planning and coordination of updates and upgrades in each system landscape. We take into account the dependencies of the systems and ensure that all SAP Basis activities are implemented on schedule.
