

UMB_ Application Packaging: Keep Your Applications Up To Date.

Enterprise applications are critical to today’s business. Security requirements are constantly increasing, while availability and stability must be guaranteed. In addition, the variety of applications in use is growing, release cycles are getting shorter, and packaging is an unpopular, yet critical, ongoing task. Leave this truly Sisyphean task to our Workplace experts. They will ensure that your applications are always up to date.

Software packaging is complex - and an unpopular ongoing task

Software packaging is challenging and time consuming. With shorter release cycles and security updates, packaging is turning into a permanent task. All applications must be packaged, tested and rolled out. This process is

a major challenge for any IT department and requires a great deal of time and expertise. A single faulty package can have a serious impact on your business, with unpleasant consequences for your users. Do you have the experts with the right skills to perform this daunting task time and time again?

We ensure secure and up-to-date applications

UMB_Workplace Application is a modern, cloud-based solution for the efficient distribution and management of software applications. We make sure that your users get the most out of your software applications.

From packaging and quality assurance to distribution and testing, we make sure everything runs smoothly. Our store solution offers a wide selection of over 1,000 standard applications. Our expertise gives us the knowledge and experience to manage your software applications for you.

| Decommissioning of obsolete or expired applications | | | 👍 |
| Integration of the customer's logo into the software packages | | | 👍 |
| Costs | | | |
| Onboarding customers (one-time) | CHF 1'000.00 | CHF 1'500.00 | CHF 2'000.00 |
| Monthly recurring costs per device ¹ | CHF 0.90 | CHF 4.90 | CHF 6.90 |
| Packaging costs | | | |
| Cost per new software package: The cost depends on the complexity of the package. The price range is between CHF 100 and CHF 2,050 per package. | 👍 | 👍 | 👍 |

¹ Minimum quantity: 50 devices.

Your Advantage

Increasing your business efficiency and security

We take responsibility for your software applications by providing professional application packaging and minimizing security vulnerabilities.

You benefit from a reliable IT infrastructure and increase quality

Software packaging minimizes process errors, reduces downtime for support calls, and ultimately improves quality by ensuring that all installations are identical.

Optimize your IT costs and save resources

We manage your software application end-to-end so that you can save time and concentrate on your core business.

«If you don't go with time, time will go without you.»

Modern Work Genius

Efficiency and innovation keep you one step ahead.
