

UMB_Expert Support: To keep your IT running and ensure you don't miss out on innovations.

IT is becoming more complex from year to year. Innovations and digitalization constantly present new issues. While this increases complexity, it is vital for the survival of your company. At the same time, it is becoming increasingly difficult to find and retain the specialists you need. We offer experts for almost every topic. They ensure that your IT stays up and running and that you don't miss out on innovation.

Digitalization and the trouble-free operation of IT is a major challenge for every company today. No company can afford prolonged downtime. Those who miss out on IT innovations today will be overtaken by the competition tomorrow.

We share our knowledge and skills with you

The expert support contract with UMB gives you access to the concentrated know-how of more than 700 experienced UMB experts. This gives you more time to focus on your core business, because you can rely on a functioning IT system at all times - UMB creating time!
