Solving IT challenges—with the Cloud PC

Traditional endpoint management quickly reaches its limits with hybrid working models. Windows 365 alleviates the burden on your IT department by providing centrally managed, cloud-based desktops. You benefit from faster provisioning, increased security, and a consistent user experience, regardless of location or device. Thanks to its easy scalability, Windows 365 is also ideal for temporary projects, new employees, and bring-your-own-device scenarios.

Our Modern Work experts get the most out of Windows 365

As an experienced and award-winning Microsoft partner, our Modern Work experts will guide you through the implementation and operation of Windows 365. From selecting the right licensing model to integrating it into your existing infrastructure – including Entra ID, Microsoft Intune, and Microsoft 365.

Secure access to local resources – such as network drives or printers – via VPN or Secure Service Edge (SSE), for example – can also be seamlessly implemented.

We get the most out of Windows 365 so that you have more time for your core business.

Your Advantages

Ready for immediate use – with or without local infrastructure

Windows 365 can be deployed in minutes—without complex setups or investments in new hardware. Ideal for rapid onboarding or flexible workplace models.

Perfect Microsoft 365 integration

Deep integration with Microsoft 365, Teams, and Entra ID ensures a smooth user experience and easy administration—all centrally controlled from the cloud.

Easy scaling – anytime, anywhere

Whether you have new employees, external partners, or changing project teams, Windows 365 can be flexibly adapted and managed. For maximum agility with minimum effort.

«If you don't go with time,
time will go without you.»
